WATER MATTERS

2021 ANNUAL REPORT
Water for South Sudan

To the Water for South Sudan Worldwide Community:

This past year has again demonstrated the resilience, leadership, and energy of our teams in South Sudan and the United States. And your inspirational generosity helps expand our projects and supports our shared mission of delivering access to clean water for and with the people of South Sudan.

Despite the ongoing impacts of the COVID-19 pandemic affecting health, safety, and ease of travel, the drilling team exceeded its goal of 40 new wells by drilling 48, including a water storage project which brings clean water to multiple locations throughout Pinydit village. The team's efforts mean that, as of August 2021, our global community has supported the construction of 505 wells bringing daily access to clean water to more than 325,000 people.

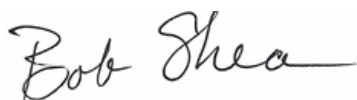

The well rehabilitation team matched that achievement with 48 older wells rehabbed or repaired, reviving the water sources to service with the latest structural upgrades. This brings our total to 215 older wells returned to serving their communities as of 2021.

Access to clean water also promotes community health through personal hygiene training. WFSS's hygiene education program completed 99 training sessions in villages last operating season. That adds up to 534 such sessions that have created village-based hygiene teachers where WFSS efforts continue to make a difference.

Thanks to our coronavirus collaboration with UNICEF in 2020, supplying emergency training and essential supplies to rural health centers, we're now expanding that relationship with a 9-month contract for latrine and well rehabilitation.

In 2022 and the years ahead, we will continue to be challenged wherever we live. Our shared humanity is evident in the support our Water for South Sudan global community provides to the people of South Sudan.

So, on behalf of our teams led by Executive Director Lynn Malooly, South Sudan Country Director Ajang Agok, and Founder Salva Dut, I thank you for being part of the team and sustaining our mission.

Robert Shea
President, Water for South Sudan Board of Directors

2021 ANNUAL ACCOMPLISHMENTS

48

NEW WELLS DRILLED

providing new daily access to water to:
30,222 people

48

WELLS REHABILITATED

renewing and extending the life of
wells for years to come

99

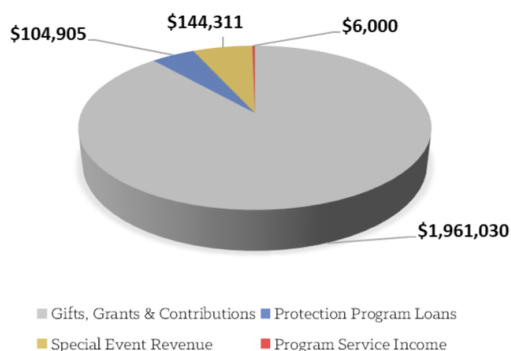

HYGIENE TRAININGS

empowering 344 educators with safe
hygiene practices to disseminate
throughout their communities

WATER STORAGE & DISTRIBUTION

The Pinydit County Water Storage and Distribution Project was completed and turned over to the community during an opening ceremony on June 4, 2021. This project provides vital daily access to clean water to more than 10,000 residents.

Project Overview

- Construction of a new well with a solar-powered pump and raised water tower in Pinydit Center;
- Installed underground piping to five water tap kiosks at the school, market center, garden, health clinic, and animal trough;
- Drilled two new hand-pump wells at Mawuthou Area and Chur Primary School;
- Rehabilitated one well at Pinydit Primary School; and
- Conducted four community hygiene training sessions—one at each well site.
- Supported community in establishing a "Water Savings Committee" (well sustainability)

Water Savings Committee

"Pinydit residents never received help like this, and now they realize there are people out there that care so much about them. This project is a great hope that they've never seen in their lives."

~Ater "Lion" Thiep, WFSS Technical Advisor

ORGANIZATION OVERVIEW

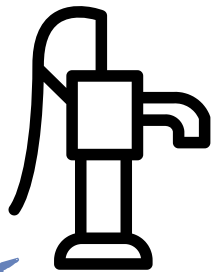

MISSION

Water for South Sudan delivers life-changing, sustainable, locally-led programs that strengthen individuals, families, communities, and the nation of South Sudan, enabled by inspired donors and supporters worldwide.

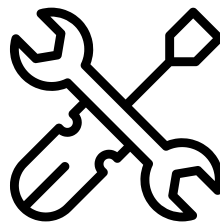

VISION

The South Sudanese people have ready access to water, sanitation, and hygiene (WASH) services.

OVERVIEW OF ACCOMPLISHMENTS

505 wells drilled,
serving 325K+ people daily

215 older wells
repaired or rehabilitated

435 hygiene programs,
3,480 educators trained

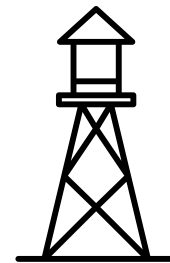

established NNGO partnership
with UNICEF—South Sudan

9 month long rehab project
to be completed July 2022

sanitation project
serving 800 students

2ND latrine & water distribution projects coming in 2022

water distribution
system serving 10k+ people

South Sudan Leadership

Ajang Abraham Agok, Country Director
Salva Dut, Founder & Chief Strategy Director
Ater Akol Thiep, Technical Advisor
