- 6-8 Partnership Projects
- 9 Organization Overview
- 10 Leadership, Staff, and Board of Directors

WATER FOR SOUTH SUDAN

To the Water for South Sudan Worldwide Community,

Thank you for your continuing support of our shared development mission of “Watering the Seeds of Change” in partnership with the people of South Sudan.

It was another challenging year for all of us. Nonetheless, our South Sudan and US-based teams, inspired by our global community’s support, sustained their energy, perseverance, and leadership.

Our mission’s work is tangible in its effect. You’ll see the details of that work in our 2022 Annual Report even as our Drilling, Well Rehab, Health Education, and Sanitation teams are rolling forward in 2023, which includes building on our successful shared collaborations with UNICEF, the Carter Center’s South Sudan operations, Norwegian Church Aid and more.

Of course, you’ll see the numbers, but perhaps more significantly, you’ll see the smiling faces of people whose lives are further empowered by our work. A significant factor in those smiles is the recognition that their South Sudanese brothers and sisters are planting the seeds of change in their lives, supported by our worldwide community.

In the years ahead, I think it’s fair to say we will all continue to face life challenges and opportunities wherever we live, whatever our individual experiences. I think it’s accurate to say that our Water for South Sudan community demonstrates to the people of the world’s newest nation that we are all in this together.

So, on behalf of the Board of Directors, our Executive Director Lynn Malooly, South Sudan Director Ajang Agok, and Founder Salva Dut, our South Sudan and US-based teams thank you for being part of the Water for South Sudan community.

A handwritten signature in black ink that reads "Bob Shea".

Robert Shea
Board President, Water for South Sudan
